Asifa Siraj

FRONTEND DEVELOPER · ACCESSIBILITY SPECIALIST

PROFILE

Frontend-focused **Computer Science undergraduate** at NED University with hands-on experience building responsive, accessible web applications using **React, TypeScript, and modern CSS**. Specialised in **WCAG-compliant UI development** through a digital accessibility internship, with full-stack exposure across Node.js, Express, and MySQL. Passionate about clean UX, performance, and shipping production features end-to-end.

EXPERIENCE

Virtual Office Assistant
Aug 2025 – Dec 2025

DesertBIM · Remote · Freelance

- Provided comprehensive administrative and organisational support to clients, ensuring smooth day-to-day operations and efficient workflow management.
- Coordinated calendars, conducted research, prepared documentation, and facilitated team communication to streamline business processes.

Digital Accessibility Intern
Jul 2025 – Dec 2025

Deserts Digital OÜ · Remote · Internship

- Supported web and PDF accessibility compliance by conducting WCAG audits and remediating issues for screen-reader compatibility.
- Assisted outreach and business-development coordination for assigned regions, contributing to deal-closing workflows.

Summer Intern — Frontend Development
Jun 2025 – Jul 2025

CodeAlpha · Remote · Internship

- Designed and developed responsive web apps with HTML, CSS, JavaScript and React, delivering seamless cross-device user experiences.
- Collaborated with designers and backend teams to ship user-friendly interfaces aligned with product requirements.

Frontend Web Developer — DIL Service Portal
Jan 2025 – Mar 2025

NED University of Engineering & Technology · Hybrid

- Built user-friendly, efficient web interfaces for the DIL Service Portal using modern front-end technologies.
- Solved real-world development challenges, refining skills in responsive layout, component design, and code maintainability.

Information Technology Support Staff
Mar 2025

Karachi Development Authority (KDA) · On-site · Internship

- Explored multiple sectors of the IT department, gaining practical exposure to system management, software maintenance, and web development processes.

Frontend Developer
Dec 2024 – Jan 2025

Interns School · Remote · Internship

- Developed a COVID-19 testing web app, strengthening responsive design and JavaScript UI skills.
- Built a personal portfolio site in WordPress, demonstrating CMS theme customisation and frontend delivery.

KEY PROJECTS

ReqMind-AI
Python · LLM

AI-powered requirement analysis system built for the HEC Generative AI Hackathon; extracts functional and non-functional requirements using LLMs.

Noor — Islamic Web App
TypeScript

Comprehensive Islamic app: prayer times, Qibla direction, Quran reading, Zikr tracking, and smart schedule planning.

Sales Dashboard
TypeScript

Interactive analytics dashboard visualising sales KPIs, filters, and trends with a clean responsive UI.

Library Management System
React · Express · MySQL

Full-stack library system with book search, lending, returns, and admin reporting — JSX frontend with REST API backend.

COVID-19 Testing App
HTML · CSS · JS

Responsive web app guiding users through testing centre lookup, symptoms check, and result tracking.

Accessible Mini-Page
HTML · ARIA

Keyboard-navigation and screen-reader friendly page built during accessibility internship to demonstrate WCAG best practices.
